global experiences accrued
over the voyage of time.

Precious, surreal
escapism laced
with purpose and
lifelong impression.

Safety. Above all.

Above all, your safety and security is our utmost priority. Years of experiences allows us to guarantee you will be chartering an aircraft with a valid AOC (Air Operator Certificate) or Part 135 Certificate (USA).

We obtain copies of the latest operator and aircraft airworthiness certificates for every flight, all of which we are happy to share with you. Further to that, we ensure that your charter operator will additionally name you, your business and your loved ones on the aircraft insurance documentation.

An enriching altitude

At WP Exclusive Luxury, we believe your inflight dining experience should be as pleasurable and luxurious as the aircraft you are travelling in.

We understand that at altitude, the chemical make-up of food and drink changes and your taste buds can be altered by cabin pressure. Working closely with the world's leading inflight catering teams, we can design the most exquisite menus to perfectly match your travel experience and global destination.

Your Special Guests

As pet lovers, we know that flying with your beloved 'Benji' can be just as important as any human guest. Your pets can travel in both comfort and style and our travel experts will assist you with all the necessary travel documentation and advice on pre-flight veterinary procedures.

Our flight concierge team will even arrange a favourite meal or snack and ensure a safe and comfortable flight with soft baskets, sleep mats and blankets.

Jet Cards and Fractions

For the discerning traveller looking for more than just an ad-hoc charter service, WP Exclusive Luxury can advise and assist you with the purchase and management of your Jet Card or Fractional Programme.

Independent consultation allows us to manage the utilisation of your jet hours and advise when a charter flight is more suitable. Take advantage of having your very own 'Flight Department' whose sole task is to ensure you benefit from the best products in the market for a fair and appropriate price.

Short term leasing can help to bridge the gap between an aircraft sale and a new aircraft delivery, or service a specific business or personal need where you have a high demand period for air travel. All options can be considered and WP Exclusive Luxury can help source the aircraft, crew and operator that best fits your profile.
